

SCRUM

<input checked="" type="checkbox"/> Named product owner (PO)	<input checked="" type="checkbox"/> Have Definition of Done (DoD)	<input checked="" type="checkbox"/> Demo happens after every sprint	<input type="checkbox"/> Whole team knows top 1-3 impediments
<input checked="" type="checkbox"/> PO is empowered to prioritize	<input checked="" type="checkbox"/> Achievable within each sprint	<input checked="" type="checkbox"/> Shows working, tested software	<input type="checkbox"/> SM has strategy for how to fix top impediment
<input type="checkbox"/> PO has enough time for the team	<input checked="" type="checkbox"/> Team respects DoD	<input checked="" type="checkbox"/> Feedback received from stakeholders & PO	<input type="checkbox"/> SM focusing on removing impediments
<input checked="" type="checkbox"/> Team has a sprint backlog	<input type="checkbox"/> Retrospective happens after every sprint	<input checked="" type="checkbox"/> Team has all skills needed to bring backlog items to Done	<input type="checkbox"/> Escalated to management when team can't solve
<input checked="" type="checkbox"/> Highly visible	<input checked="" type="checkbox"/> Results in concrete improvement proposals	<input type="checkbox"/> Team members not locked into specific roles	<input checked="" type="checkbox"/> Velocity is measured
<input checked="" type="checkbox"/> Updated daily	<input checked="" type="checkbox"/> Prioritized proposals actually get implemented	<input checked="" type="checkbox"/> PO has clear vision that is in sync with PBL	<input checked="" type="checkbox"/> All items in sprint plan have an estimate
<input checked="" type="checkbox"/> Owned exclusively by the team	<input type="checkbox"/> Whole team + PO participates	<input checked="" type="checkbox"/> PBL and product vision is highly visible	<input type="checkbox"/> PO uses velocity for release planning
<input checked="" type="checkbox"/> Daily standup happens	<input checked="" type="checkbox"/> PO has a product backlog (PBL)	<input type="checkbox"/> PO available when team is estimating	<input checked="" type="checkbox"/> Velocity only includes items that are Done
<input type="checkbox"/> Whole team participates	<input checked="" type="checkbox"/> Top items are prioritized by business value	<input checked="" type="checkbox"/> Estimate relative size (story points) rather than time	<input checked="" type="checkbox"/> Team has a Scrum Master (SM)
<input checked="" type="checkbox"/> Problems & impediments are surfaced	<input checked="" type="checkbox"/> Top items are estimated	<input type="checkbox"/> Team has a sprint burndown chart	<input checked="" type="checkbox"/> SM sits with the team
<input type="checkbox"/> PO participates at least a few times per week	<input checked="" type="checkbox"/> Estimates written by the team	<input type="checkbox"/> Highly visible	
<input checked="" type="checkbox"/> Max. 15 minutes	<input type="checkbox"/> Top items small enough to fit in a sprint	<input type="checkbox"/> Updated daily	
<input checked="" type="checkbox"/> Have sprint planning meetings	<input checked="" type="checkbox"/> Timeboxed iterations (scrum)		
<input checked="" type="checkbox"/> PO participates	<input checked="" type="checkbox"/> Iteration length 4 weeks or less		
<input type="checkbox"/> PO brings up-to-date PBL	<input checked="" type="checkbox"/> Always end on time		
<input type="checkbox"/> Whole team participates	<input checked="" type="checkbox"/> Team not disrupted or controlled by outsiders		
<input checked="" type="checkbox"/> Results in a sprint plan	<input checked="" type="checkbox"/> Team usually delivers what they committed to		
<input type="checkbox"/> Whole team believes plan is achievable

Team: WEBMAIL

Score: 38/63

Scaling

- ☐ You have a Chief Product Owner (if many POs)
- ☐ Dependent teams do Scrum of Scrums
- ☐ Dependent teams integrate within each sprint

Positive indicators

- ☒ Having fun! High energy level.
- ☒ Overtime work is rare and happens voluntarily
- ☒ Discussing, criticizing, and experimenting with the process
